

## California Weight Certificate Disclaimer

*Ref. Vehicle Industry Registration Procedures Manual – Chapter 13: Commercial Vehicles – 13.145  
Weight Certificate - 13.145 Weight Certificate (B&PC §§12700, 12711, and 12714–12715)*

California State Statutes require all California Registered Drivers purchasing a commercial vehicle with an unladen or empty weight of 10,000 pounds or less and weight 8,001 pounds or more to show proof of a valid Weight Certificate to register a newly purchased vehicle in California. You must bring your new vehicle to a Licensed Inspector in California to obtain a Weight Certificate to legally title and register your new vehicle. For proper registration and/or lien filing for your bank, you must comply with California State Law by assisting and producing the California Weight Certificate. Any delay with assistance will result in late penalties from the State of California and/or legal action.

I understand that my involvement is required and necessary to complete/produce/acquire the California Weight Certificate and I acknowledge that delays on my part will result in additional state taxes and fees.
