

California VIN Verification Disclaimer

Ref. California Vehicle Industry Registration Procedures Manual – Section 2-38 – Chapter 1: General Registration Information – 1.165 Vehicle Verifications

California State Statutes require all California Registered Drivers to show proof of a valid VIN number to register a newly purchased vehicle in California. You must bring your new vehicle to a Licensed Inspector in California to obtain a VIN Verification to legally title and register your new vehicle. For proper registration and/or lien filing for your bank, you must comply with California State Law by assisting and producing the California VIN Verification. Any delay with assistance will result in late penalties from the State of California and/or legal action.

I understand that my involvement is required and necessary to complete/produce/acquire the California VIN Verification and I acknowledge that delays on my part will result in additional state taxes and fees.
